

Welcome to RedEverywhere's Alternative Learning & Education Hubs.

I'm delighted to welcome you to RedEverywhere. Our hubs exist for one purpose: to reconnect young people with learning, rebuild confidence, and open up real next steps into college, training, apprenticeships, and work.

We run two small, focused cohorts each day Morning (9:00–12:15) and Afternoon (12:45–3:30). Smaller groups, calmer spaces, and consistent routines mean every learner gets the attention they deserve. Both cohorts follow the same curriculum to ensure fairness and parity of experience.

At the heart of our offer are English and Maths, taught through applied, real-life contexts in a supportive, relational environment. Around this core we build engaging, hands on learning in Business & Enterprise, Immersive Learning & Digital Media (including VR), Creative Arts, PSHE (VR-supported), Personal & Social Development, and Work Experience & Life Skills. We use Century Tech as our primary adaptive platform, with Microsoft Teams (Microsoft Classrooms) for live teaching, resources, feedback, and remote learning when needed.

We set clear expectations and celebrate progress. Our Student Rewards Programme recognises individual effort and cohort success every week, with certificates, leaderboards, and termly rewards. It's about steady wins, positive habits, and momentum.

Safeguarding and wellbeing are our highest priorities. A Designated Safeguarding Lead (DSL) is always available during hub hours, and we work closely with parents/carers, host schools, and local services to keep every child safe and supported. Where learners have an EHCP, we coordinate support and exam access arrangements with the host school; where appropriate, GCSE exams can be sat in our hubs.

Most of all, RedEverywhere is a place where young people feel seen, safe, and capable. Thank you for trusting us with the next stage of your child educational journey. If you have questions, ideas, or you would like to visit, please reach out we would love to hear from you.

Kind Regards

Marcus Isman-Egal

Managing Partner & Designated Safeguarding Lead

The RedEverywhere Group
